8 VIRAL GITHUB REPOS · CHECKED 18 OCT 2026

These 8 GitHub repos went viral. I checked every one.

The most-shared one has a licence catch almost nobody mentions.

BY THE END:

Which of the 8 to use today, which to try, and the catch to avoid.

BENCH LOG 8 CHECKED · STARS ON GITHUB, 18 OCT 2026

✓ REA	320,724	✓ VoiceStudio	74,978
✓ HyperFrames	66,635	✓ Hindsight	51,204
✓ Buzz	36,124	✓ Laya	33,376
✓ ArtCraft	32,595	✓ Shaders	5,062

HOW I CHECKED THEM

Like a home inspection. *Before you buy.*

A repo is a free software project shared on GitHub. You wouldn't buy a house because it's popular. You'd send an inspector.

CHECK 01 ☑

Is it the real one?

Copycat repos with fake 'free download' pages exist.

CHECK 02 ☑

Can a business use it?

Some free tools are personal use only.

CHECK 03 ☑

Does it run on a normal PC?

I ran it on mine where I could.

CHECK 04 ☑

What does it really cost?

Some 'free' repos need paid AI services.

VERDICT KEY

 Green = use it today

 Amber = try it

 Grey = wait

01 REA

Reverse Engineer Anything

WHAT IT IS

Lets your AI study how an app does something, so you can build your own version.

WHY YOU CARE

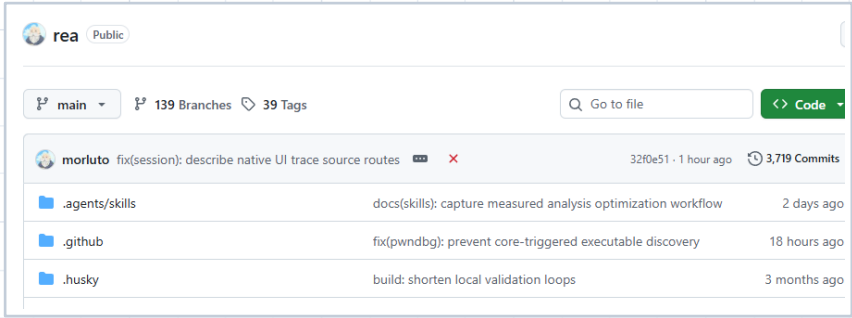

Stop paying for a whole tool when you only need one feature of it.

NUMBERS

320,724	+88,942	MIT
stars	stars in 4 days	licence: business use OK

VERDICT NOTE

I use it. Only study apps you're allowed to study.

TEST

Tested on my PC

Blind test 11 Oct. Built 3 features of my own 14 Oct.

REA · COPY THIS PROMPT

Install it safely. *One folder only.*

WHERE Paste into Claude Code, opened in a new empty folder.

PROTOCOL 01 · PROMPT · COPY AS WRITTEN

```
I want to install this GitHub repo, all its agents and skills, directly into this folder only. Do not change any settings outside this folder, and do not run any setup command that installs things for my whole computer.

Before you install anything, scan the entire repo and tell me if anything looks harmful.

Then set up a team in this folder that can study how one feature of an app works and help me build my own version of it.

02 ArtCraft

13 free creative apps

WHAT IT IS

13 free, open-source apps that do the jobs of Photoshop, Acrobat, Premiere and more.

WHY YOU CARE

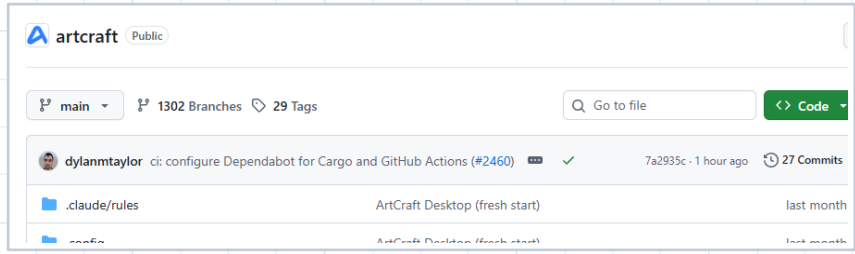

Cut a design-software subscription for the jobs you do every week.

NUMBERS

32,595	67,350	13
stars (ArtCraft)	stars on PhotoCraft alone	free apps

VERDICT NOTE

PdfCraft is ready today. The rest are early versions.

TEST

Tested on my PC

ARTCRAFT · COPY THIS PROMPT

Sign a contract pack. *No Acrobat.*

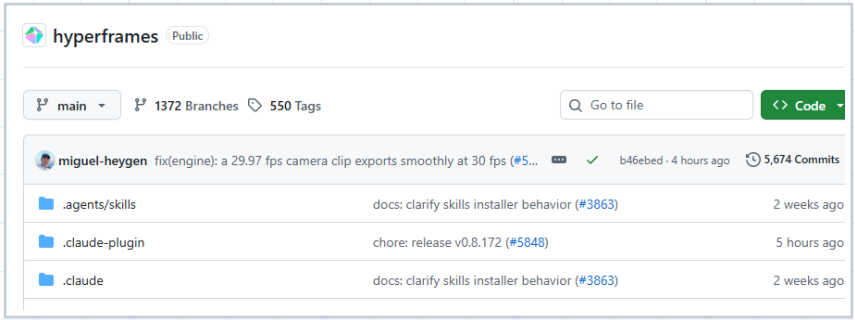

WHERE Paste into Claude Code after connecting PdfCraft (steps in the description).

PROTOCOL 02 · PROMPT · COPY AS WRITTEN

```
Use only the pdfcraft tools. In C:\Craft there are two PDFs, invoice.pdf and terms.pdf.
1) Merge them into contract-pack.pdf, invoice first.
2) Save page 1 on its own as invoice-only.pdf.
3) On page 1 of contract-pack.pdf, put a typed signature "Jane Client" next to "Client
signature:", add today's date next to it, and add an APPROVED stamp in the top-right
corner. Save it as contract-pack-signed.pdf.
4) Render page 1 and check it looks right. Tell me the page count of each file.
Save only inside C:\Craft.
```

03 HyperFrames

From HeyGen

WHAT IT IS

Describe a video to your AI. It builds it like a web page, then turns it into an MP4.

WHY YOU CARE

Promo clips, explainers and social videos without hiring an editor.

NUMBERS
